

BASIC TRAINING FOR SCREEN PRINTERS

DURATION: 1 ½ days

SCHEDULE: Day 1: 9:00 am to 4.30 pm
Day 2: 8.30 am to 12.30 pm

PARTICIPANTS: 8 – 12 persons

SEMINAR FEE: EUR 295 per person
Lunch, dinner and extensive training documentation included

SPEAKER: JOHANN BAUER
Manager Technical Application

In this practical seminar we illustrate the screen printing process with focus on graphic and technical/industrial screen printing. We talk about the essential influencing factors such as screen making, printing machine and ink on the quality of the print, and we will demonstrate this in practice.

This seminar will familiarize the beginner with the screen printing process and all necessary basics. But also career changers working now in screen printing as well as longtime screen printers use this seminar to update their expertise.

- Screen printing process
- Screen fabric specifications, variety
- Basics of screen making
- Basics of colour perception
- Ink: basic components, ink systems, ink ranges, additives, how to adjust and process ink
- Printing practice
- Interdependence: ink – substrate – stability
- Safe handling of inks

The seminar is held in the Coates Screen Inks GmbH company building in Nuremberg.
